**Noble Systems Receives Market Leadership Award at
Frost & Sullivan's 2016 Awards Gala**

Customer Contact technology provider maintains its leadership position in outbound dialing technologies

Atlanta, GA – January 14, 2016: [Noble Systems Corporation](#), a global leader in innovative contact center technology solutions, was honored to accept the **Frost & Sullivan 2015 Market Share Leadership Award** for the North American Outbound Dialing Systems market. Noble Systems maintains its position as the market leader for the third consecutive year.

[Noble Systems was awarded the Frost & Sullivan North American Outbound Dialing 2015 Market Share Leadership Award](#) for demonstrating excellence in capturing the highest market share within its industry. Noble Systems' client base represents over 20 percent of the outbound dialer systems market. Of note are Noble's continued growing patent portfolio and brand strength; its innovative solutions for issues that affect the dialing market, including TCPA wireless compliance and improving the customer experience; and flexible options for organizations of all sizes.

Frost & Sullivan hosted the [2016 North American Excellence in Best Practices Awards Gala](#) in San Diego, California, to recognize companies, strategies, processes, and executives that have achieved world-class performance within their industries. [Henry Danser](#), Vice President of Sales – Western Region, represented Noble Systems at the gala event.

[Chris Hodges](#), Senior Vice President of Sales and Marketing for Noble Systems, states, "Noble Systems is honored to receive Frost & Sullivan's Best Practices Award for the third consecutive year for our best-in-market solutions. Noble's corporate culture is focused on providing contact center technology solutions for organizations of all sizes, beginning with superior outbound, inbound, and compliance technologies and extending to a complete, unified customer communications platform."
