Noble Systems Brings Customer Experience Technologies for the Collections Industry to RMA 2018

Atlanta, GA – January 31, 2018: [Noble Systems](#), a global leader in unified contact center technology solutions, will be showcasing its industry-leading Customer Experience solutions at the [Receivables Management Association's 2018 Annual Conference](#) in Las Vegas (Feb 6-8).

RMA's Annual Conference is the premier event for the receivables management industry. Debt buyers, originating creditors, collection agencies, law firms, brokers, and affiliates gather for three days of industry education and regulatory updates, networking, and business opportunities. Noble Systems will be featuring our patented contact management technologies for collections organizations, including our [Noble® Secure Payment Assist](#) solution that helps customers ensure PCI-DSS compliance to minimize risk exposure while improving the customer experience. Visitors can find Noble in booth #310.

Noble Systems' solutions help companies manage the range of customer communications and related processes, including omnichannel inbound / outbound contact technologies, analytics and strategy planning tools, and resource management, to help improve the customer experience and employee engagement. Frost & Sullivan has named Noble as the [Outbound Market Leader for five consecutive years](#). Noble's innovative single-code premise, cloud, and hybrid platforms allow organizations to increase efficiency, performance, and productivity, manage regulatory compliance, and decrease costs throughout their customer contact center programs.

About Noble Systems

Noble Systems Corporation is a global leader in the customer communications industry, providing innovative solutions for Contact Center, Workforce Management, and Analytics technologies. Tens of thousands of agents at 4,000+ client installations worldwide use Noble platforms to manage millions of customer contacts each day. Noble offers a unified suite of inbound, outbound and blended omnichannel communications, strategy planning, and resource management tools for companies of all sizes. Our premise, cloud, and innovative premise/cloud hybrid platforms include ACD, predictive dialing, blended processing, recording and monitoring, IVR, messaging, interaction analytics, decisioning, and workforce management. With a portfolio of 150+ patents and growing, Noble leads the way in pioneering solutions for the contact center market.
