Noble Systems Changes the Collections Game with Gamification and Customer Experience Technologies at DCS 2018

Atlanta, GA – August 29, 2018: [Noble Systems Corporation](#), a global leader in omnichannel contact center technologies, is bringing its game-changing collections technologies for Gamification and Customer Experience (CX) to [Debt Connection Symposium](#), September 5 - 7 in Austin, Texas. Noble specializes in innovative solutions for Contact Center, Workforce Engagement, and Analytics to improve performance and efficiency and drive revenue for collections centers.

DCS 2018 combines five distinct learning styles and experiences with more networking opportunities and specialty meetings than ever before in one venue. In addition to presentations from a high-caliber faculty, a key ingredient of the event is to give attendees the opportunity to meet peers and other industry professionals, as well as finding new products and services that might make their job easier, better, more efficient, more productive, etc.

Noble Systems will be featured in the Expo Hall, showcasing our [patented contact management and compliance technologies](#) for collections organizations, including our [market-leading Noble Gamification solutions for agent engagement](#) with AI machine learning and robust e-coaching and [real-time and post-call Conversations Analytics](#) to improve the customer experience. Join us for in booth 804 for demos and special give-aways.

About Noble Systems

Noble Systems Corporation is a global leader in the customer communications industry, providing innovative solutions for Contact Center, Workforce Engagement, and Analytics technologies. Tens of thousands of agents at 4,000+ client installations worldwide use Noble platforms to manage millions of customer contacts each day.
